NOTICEBOARD

#apTCS

Dear Students,
In the midst of everything going on, let's not forget that it is just a matter of months before companies start visiting your campus to hire you. It's the time to make the most out of this opportunity and fruitfully utilize the time in hand. TCS has come up with a new initiative - **#apTCS**. One Aptitude / Verbal question will be put on Campus Commune every morning and the answer for the same will be declared at 6.00 PM every evening. If you can get these answers correct, you know your preparation is going in the right direction. If not, you'd know that you need to practice a little harder.

#apTCS : Question 7

Forty slips are placed into a hat, each bearing a number 1,2,3,4,5,6,7,8,9 or 10, with each number entered on four slips. Four slips are drawn from the hat at random and without replacement. Let p be the probability that all four slips bear the same number. Let q be the probability that two of the slips bear the same number. What is the value of $\frac{p}{q}$?
